

The Great Paul Revere Book Gallop

(Please keep these instructions in the book!)

A grassroots effort to reawaken America

The book “Common Sense” was chosen by the Paul Revere Club for its principled message about how our Constitutional Liberties are now in peril. It is our mission to have this book’s message gallop across the country with the same urgency of Paul Revere’s original call to action back in 1775. **The Paul Revere Club is a grassroots, not for profit club that is not associated with Glenn Beck or any publishers / booksellers.**

Action 1: Please read this copy of “Common Sense” (at least to page 111) and then give it away for someone else to read. (complete with this instruction sheet).

Action 2: Please purchase an additional copy of this book, [insert these instructions](http://www.paulreveresgallop.org) and gallop that copy forward as well. That will ensure that this grassroots effort will grow exponentially, and that the message will expand across the country! (See *How to Make a Book Gallop* at (www.paulreveresgallop.org)

Please keep the momentum going and recognize how important this effort is. If everyone follows the above instructions, then, through the magic of compounding the message will continue to accelerate. (Formula Below as “Books Read”)
